Save on your maintenance medications with Saver90

Blue Cross Blue Shield of Michigan and Blue Care Network are helping you save money on your maintenance medications by getting 90-day supplies. You have the option of picking up your prescription at Walgreens or having it delivered to your home through the Optum Home Delivery pharmacy.

Maintenance drugs are taken on a recurring and regular basis and are prescribed for chronic conditions. Some examples include drugs to treat:

HIGH BLOOD PRESSURE

HIGH CHOLESTEROL

DIABETES

ASTHMA

How it works

- You'll pay two copayments instead of three for a 90-day supply of your medicine.
- After two 30-day courtesy fills of a maintenance medication at any pharmacy in our network, you must fill 84- to 90-day supplies at a retail Walgreens store or through home delivery from the Optum Home Delivery pharmacy.
- If you attempt to fill your prescription at any other pharmacy or with the wrong days' supply, you'll pay 100% of the prescription cost, after your two courtesy fills. For example, if a drug costs \$75, even if your copay or coinsurance is only \$20, you'll pay the full \$75.
- If you continue getting 30-day supplies or filling at out-of-network pharmacies, we'll send you reminders about the value of Saver90.
- You'll pay less at Saver90 pharmacies.

Get started today by choosing one of the options below:

1. Log in to your secure online member account at [bcbsm.com](https://www.bcbsm.com) or on our mobile app. Then click on *My coverage*, select *Prescription*, and then *Order online*.
2. Blue Cross members can call the Optum Home Delivery pharmacy at **1-855-811-2223**. BCN members can call the Optum Home Delivery pharmacy at **1-844-642-9087**. Members with a hearing impairment can call **TTY 711**. Optum will contact your doctor to get your new 90-day prescription.
3. Transfer your prescriptions to Walgreens in any store, by phone, online or via Walgreens' mobile app.
